

## SUNDRY CIVIL APPROPRIATION BILL, FISCAL YEAR 1922.

DECEMBER 29, 1920.—Committed to the Committee of the Whole House on the state of the Union and ordered to be printed.

Mr. Good, from the Committee on Appropriations, submitted the following

### REPORT.

[To accompany H. R. 15422.]

The Committee on Appropriations submit the following report in explanation of the accompanying bill making appropriations for the sundry civil expenses of the Government for the fiscal year ending June 30, 1922:

#### ESTIMATE, FISCAL YEAR 1922.

The estimates upon which this bill is based are to be found as follows:

Book of Estimates, 1922, pages 509-515, 519-530, 539-619, and 635-879, aggregating.....	\$803, 446, 196 86
Supplemental estimates submitted in House documents of the present session, Nos. 895, 896, 898, 899, 922, 931, and 934, and otherwise, aggregating.....	1, 079, 288. 00
Total regular and supplemental estimates.....	804, 525, 484. 86

#### APPROPRIATIONS, FISCAL YEAR 1921.

Sundry civil act, approved June 5, 1920.....	\$435, 648, 806. 92
Water power act, approved June 10, 1920.....	125, 000. 00
Third deficiency, 1920, approved June 5, 1920.....	75, 000. 00
Total, 1921, appropriations for sundry civil purposes in all acts.....	435, 848, 806. 92

## APPROPRIATIONS RECOMMENDED IN THE BILL FOR 1922.

The total amount recommended to be appropriated in this bill for the service of the fiscal year ending June 30, 1922, is \$383,271,292.41.

The amount recommended in the bill for 1922, compared with the appropriations for similar purposes for 1921 and with the estimates for 1922, shows the following differences:

It is \$421,254,192.45 less than the amount requested in the estimates.

It is \$52,577,514.51 less than the amount appropriated for similar purposes for the current fiscal year.

A comparative statement is submitted in this report (pp. 7 to 23) showing in detail the appropriations for the current year, the estimates for the fiscal year 1922, the amounts recommended in the accompanying bill, the increase or reduction of the amounts estimated for 1922 as compared with the amounts recommended in the bill, and the increase or decrease in the amounts for the current year as compared with the amounts recommended in the bill.

The paragraphs of substantive legislation and the principal paragraphs of limitation upon appropriations are also set forth in this report on pages 4 to 6.

There is included in the bill \$223,000,000 on account of military and naval compensation for death or disability of soldiers, sailors, and marines, medical, surgical, and hospital treatment of beneficiaries of the Bureau of War Risk Insurance, and vocational rehabilitation of soldiers, sailors, and marines, all growing out of the recent war. Deducting this sum from the amount recommended in the accompanying bill leaves but \$160,271,292.41 for all other purposes, as compared with \$126,922,750.79, the amount carried by the sundry civil act for the fiscal year 1916.

## PRINCIPAL REDUCTIONS IN 1922 ESTIMATES

Public buildings.....	\$6, 798, 400. 00

Employment Service.....	1, 384, 991. 50
Government Printing Office.....	2, 215, 100. 00
Panama Canal.....	7, 187, 255. 40

The largest of the foregoing reductions applies to the United States Shipping Board Emergency Fleet Corporation. The bill provides that this organization shall be supported entirely out of its various sources of income, following the method prescribed in the sundry civil act for the fiscal year 1921, notwithstanding the provisions of the merchant marine act approved June 5, 1920. The provision in the current sundry civil act prohibiting, after the approval of the bill, the entering into contracts or the undertaking of work for any additional vessels for the Shipping Board or the Emergency Fleet Corporation, is recommended in this bill to be continued.

A large portion of the reductions above enumerated have to do with public works, and the items which they represent are not recommended in keeping with the committee's policy to defer all construction work which might be postponed without detriment to the public interest.

#### PRINCIPAL INCREASES OVER 1921 APPROPRIATIONS.

The principal increase in any item of the bill over the similar purpose for the current fiscal year is the increase of \$11,803,000 for the Reclamation Service. The amount carried in this bill for the Reclamation Service is \$20,277,000 as against \$8,474,000 for the current fiscal year. The whole of the amount recommended for appropriation it is provided shall be payable from the "reclamation fund," and that is possible by reason of the oil-leasing act approved February 25, 1920, under the terms of which the "reclamation fund" is to be credited with 70 per cent of receipts from bonuses, royalties, and rentals from past production and 52½ per cent from future production. The Director of the Reclamation Service estimates that the receipts from this source will approximate \$15,000,000 prior to July 1, 1922.

The act to increase the efficiency of the commissioned and enlisted personnel of the Army, Navy, Marine Corps, Coast Guard, Coast and Geodetic Survey, and Public Health Service, approved May 18, 1920, commonly known as the pay increase bill, is reflected in this bill as to the Coast Guard, the Coast and Geodetic Survey, and the Public Health Service. Under the terms of that act the personnel of those services receive the same pay and allowances as the personnel of the Army and Navy, and it has been necessary to increase to a considerable extent the appropriations of those services covering pay and allowances.

Other principal items of increase for 1922 over 1921 are as follows:

Flood control.....	\$500,000
National Home for Disabled Volunteer Soldiers.....	1,231,000
Lighthouses, beacons, etc.....	1,000,000
Government Printing Office.....	516,200

## PRINCIPAL ITEMS OF REDUCTION UNDER 1921 APPROPRIATIONS.

Public buildings, construction.....	\$2,580,439.71
War Risk Bureau: Medical and hospital services.....	13,000,000.00
Vocational education.....	25,000,000.00
National cemeteries.....	20,524,000.00
Transportation facilities on inland and coastwise waterways.....	2,750,000.00
Alaska, railroads in.....	3,000,000.00
Interdepartmental Social Hygiene Board.....	1,015,000.00

The appropriation proposed on account of medical and hospital services for war-risk patients is \$33,000,000, or \$13,000,000 less than the appropriation for 1921. The estimate for 1922 is \$50,000,000. There were 19,857 patients receiving treatment on November 18, 1920, and the estimate is that the number will reach 30,000 during the fiscal year 1922. These patients are cared for in Public Health Service hospitals, in hospitals at the various soldiers' homes, in Army and Navy hospitals, and in contract hospitals, at varying cost rates. The amount proposed is on the basis of 30,000 patients throughout the fiscal year 1922, at the approximate rate of \$3 per day.

While there is an apparent reduction of \$25,000,000 in the amount proposed for 1922 for vocational training, the bill provides for the reappropriation of the unexpended balances of the appropriations for 1920 and 1921, estimated to be not less than \$10,500,000.

The reduction in the amount for National Cemeteries has been made pursuant to a modification in the estimate made at the hearings. It then developed that but \$3,016,000 remains to be appropriated properly to care for the remains of those of the military and naval forces who lost their lives in the recent war, of which sum but \$1,000,000 will be needed during the fiscal year 1922.

## LIMITATIONS.
